FATEMEH ENTEZARI

Hong Kong ‖ entezari@ust.hk ‖ LinkedIn ‖ GitHub ‖ ORCID ‖ Website

Ph.D. Economics (HKUST, 2026) | Part-time Lecturer, School of Humanities and Social Science

I am an Iranian economist specializing in development economics with a gender lens. I use rigorous applied econometrics to study how trade, protest, and institutional shocks reshape firm dynamics, gender norms, and social change. As both an active researcher and classroom instructor, I combine frontier empirical work with AI-augmented pedagogy to train the next generation of quantitative social scientists.

Working Experience

The Hong Kong University of Science and Technology — Hong Kong
Part-time Lecturer, School of Humanities and Social Science — Sep 2026–Present
- China Middle East (MGCS 6001D).

Education

The Hong Kong University of Science and Technology — Hong Kong
Ph.D. in Economics — 2022–2026
Thesis: Shocks to Systems: How Trade and Protest Reshape Firm Dynamics and Gender Norms

The Hong Kong University of Science and Technology — Hong Kong
MPhil in Economics — 2020–2022
Thesis: The Impact of Import Competition and Trump's Election on Hate Crimes

Bilkent University — Ankara (Turkey)
Master of Business Administration (MBA) — 2015–2017
MBA capstone: Analysis of DigiKala's integrated marketing model and go-to-market strategy

Sharif University of Technology — Tehran (Iran)
Bachelor of Science in Engineering — 2010–2015

Working Papers

Fatemeh Entezari. (2026). "From Public Defiance to Private Empowerment: The Social Legacy of Social Unrest." Working paper.
Fatemeh Entezari, Robin Kaiji Gong, Yatang Lin, and Jin Wang. (2026). "Breaking Barriers or Deepening Divides? Trade Liberalization and the Gender Performance Gap in Vietnamese Enterprises." Working paper.
Fatemeh Entezari, Albert Francis Park, and Angela Tritto. (2026). "Chinese State-Owned Enterprises Under the Belt and Road Initiative." Revise and resubmit, *Journal of the Asia Pacific Economy.*
Fatemeh Entezari. (2025). The Impact of Import Competition and Trump's Election on Hate Crimes. SSRN working paper.

Teaching Experience

Research Mentoring — Hong Kong
Research Assistant Supervisor — 2025–Present
- Mentoring two part-time RAs on female entrepreneurship projects in Vietnam.
- Instruction in applied econometrics, Git repository management, and Stata/Python.

The Hong Kong University of Science and Technology — Hong Kong
Graduate Teaching Assistant — Sep 2021–Dec 2025

- Tutorials and grading for 100+ students across undergraduate and master's courses.
- Course support for econometrics and entrepreneurship.

Bilkent University Ankara (Turkey)
Lecturer Sep 2016–Jun 2017

- Taught use of the Bloomberg Terminal for real-time market data analysis.

Sharif University of Technology Tehran (Iran)
Lecturer Sep 2013–Jun 2015

- Undergraduate instruction for 100+ students in engineering graphics and spatial modeling.
- Curriculum design for teaching AutoCAD and ArcGIS to engineering students.

Teaching Interests

Middle Eastern studies
Social unrest, political economy, gender equality, secularization, and social change.

Econometrics and data science
Applied econometrics, data analytics for the social sciences, and programming for economics.

Conference Presentations

Fatemeh Entezari. (2026). *2026 Asia Meeting of the Econometric Society—China* (AMES2026-China), HKU Business School, Hong Kong, China, June 19–21, 2026. Conference site; Program.

Fatemeh Entezari. (2026). *12th Hong Kong Economic Association Biennial Conference*, University of Macau, Macau, June 15–16, 2026. Conference site.

Fatemeh Entezari. (2024). *Female-led enterprises under trade liberalization: Evidence from Vietnam.* Contributed paper, session "Vietnamese Economy," *2024 Asia Meeting of the Econometric Society* (East & Southeast Asia), Ho Chi Minh City, Vietnam, August 4, 2024. Program.

Grants & Funds

ReCIPE PhD Research Grant (CEPR) 2025
Research grant of £ 14,550 from CEPR's ReCIPE programme [1]
Title: *From Public Defiance to Private Empowerment: The Social Legacy of Social Unrest.*

Scholarships & Awards

CBSA–Wisers Analytics Challenge 2022
First runner-up. NLP competition on (i) Hang Seng Index (HSI) social media sentiment and (ii) engagement with pandemic-related news.

Bilkent University 2015
Full scholarship for MBA admission.

STEM University Entrance Examination (Iran) 2010
Ranked in the top 0.01% on Iran's national university entrance examination for STEM fields.

Technical Skills

Econometrics: Causal inference, panel data, instrumental variables, DID, regression discontinuity design, GMM, synthetic control, SUR

Computer Programming: Stata, Python, R, Git, LaTeX

[1] *Reducing Conflict and Improving Performance in the Economy, United Kingdom*

Machine Learning and Artificial Intelligence: Supervised learning (DNN, boosting and ensemble methods, linear regression), reinforcement learning (A2C, DQN, DDPG, etc.), natural language processing, computer vision, LSTM
